Cohort Adjust.																																	

\*2007 entries repeat 2006 data

Percentiles below are based on the original cohort at the top of each left-hand column above. U.S.D.Ed. allows the original cohort to be *adjusted downward* for a number of circumstances -- namely, before graduating, if the student: 1) dies; 2) enters the armed forces; 3) enters foreign aid service for the gov't; or 4) leaves on an official church mission assignment. The number of such students in each cohort above should be recorded in the "Cohort Adjust." box below the column. This number will be deducted from the original cohort number above when computing the right-hand column (graduated) percentile of each cohort below.

Cohort Adjust.		1								1																							

Percentiles below are based on the original cohort at the top of each left-hand column above. U.S.D.Ed. allows the original cohort to be *adjusted downward* for a number of circumstances -- namely, before graduating, if the student: 1) dies; 2) enters the armed forces; 3) enters foreign aid service for the gov't; or 4) leaves on an official church mission assignment. The number of such students in each cohort above should be recorded in the "Cohort Adjust." box below the column. This number will be deducted from the original cohort number above when computing the right-hand column (graduated) percentile of each cohort below.

Cohort Adjust.																														

\*2007 entries repeat 2006 data

Percentiles below are based on the original cohort at the top of each left-hand column above. U.S.D.Ed. allows the original cohort to be *adjusted downward* for a number of circumstances -- namely, before graduating, if the student: 1) dies; 2) enters the armed forces; 3) enters foreign aid service for the gov't; or 4) leaves on an official church mission assignment. The number of such students in each cohort above should be recorded in the "Cohort Adjust." box below the column. This number will be deducted from the original cohort number above when computing the right-hand column (graduated) percentile of each cohort below.

Cohort Adjust.																														

Percentiles below are based on the original cohort at the top of each left-hand column above. U.S.D.Ed. allows the original cohort to be *adjusted downward* for a number of circumstances -- namely, before graduating, if the student: 1) dies; 2) enters the armed forces; 3) enters foreign aid service for the gov't; or 4) leaves on an official church mission assignment. The number of such students in each cohort above should be recorded in the "Cohort Adjust." box below the column. This number will be deducted from the original cohort number above when computing the right-hand column (graduated) percentile of each cohort below.

Cohort Adjust.																																	

Percentiles below are based on the original cohort at the top of each left-hand column above. U.S.D.Ed. allows the original cohort to be *adjusted downward* for a number of circumstances -- namely, before graduating, if the student: 1) dies; 2) enters the armed forces; 3) enters foreign aid service for the gov't; or 4) leaves on an official church mission assignment. The number of such students in each cohort above should be recorded in the "Cohort Adjust." box below the column. This number will be deducted from the original cohort number above when computing the right-hand column (graduated) percentile of each cohort below.

Cohort Adjust.																															

Percentiles below are based on the original cohort at the top of each left-hand column above. U.S.D.Ed. allows the original cohort to be *adjusted downward* for a number of circumstances -- namely, before graduating, if the student: 1) dies; 2) enters the armed forces; 3) enters foreign aid service for the gov't; or 4) leaves on an official church mission assignment. The number of such students in each cohort above should be recorded in the "Cohort Adjust." box below the column. This number will be deducted from the original cohort number above when computing the right-hand column (graduated) percentile of each cohort below.
